The Tannery operations only commenced in August last, and as the tauning process involves a period of several months, the business of this Department is in its infancy—a very superior article is, however, being produced at low prices by an economical process, and, as there is no difficulty in obtaining an abundant supply of Hides, the outturn will be sufficient for the supply of the general demand for harness, mill belting, &c , in addition to the requirements of the Boot Factory.

The Belmont Boot and Shoe Factory was the first enterprise of its kind established in the Province, and its having been so far carried on with success is an assurance that, as population increases, very remunerative returns will be realised.

The value of industrial institutions to the well being of any country is indisputable, and as the hides preduced in the Province are now being manufactured into leather, which in turn is made into Boots and Shoes, &c., (instead of as formerly being exported and the manufactured articles in turn imported,) the saving to the country by the undertaking is sufficiently obvious. It is, therefore, not unreasonable to assume that the advantages which the prosecution of such a reproductive institution insures will, aside from the remunerative character of the business, have due weight with all who are in any way interested in the prospective of the Province.

It should be remarked that this company with become HAVANA CIGARS & TOBACCO.

HAS JUST RECEIVED EX PRINCE MEERCHAUM AND OTHER PIPES. It should be remarked that this company will becom

at once possessed of two businesses with established connections, without any interruption to working or loss of time in transfer, and will therefore have from the first day of its possession a revenue from a business which is capable not only of immediate, but, in the which is capable not only of immediate, but, in the future, almost unlimited extension.

Most similar undertakings of any magnitude are now worked successfully by joint stock companies, both in Great Britain and in the United States.

The transfer of the property to the Company will only be made upon terms satisfactory to the Provisional Beard of Directors, based upon the valuation. The purchase will be effected to a large extent in shares retained by the present proprietor, a portion of which will not participate in any profit until a dividend of 10 per cent has first been paid to the new shareholders.

OBSERVER.

Mr. Mulkins, of the H.B.O survey party in the Saskarchewan region, writes ander date of May 17th, from that section, and reports a very severe winter the past season causing great suffering among the Indiana and death by starvation of quite a number. Trade has been up to the average throughout the whole territory, varying to either extreme at far distint points. In his letter he says be Moberly party of railway explorers from British Columbia have cut a fair road across the mountains to Jasper House which is about 120 miles west of Edmonton, and at the eastern base of the Rocky Mountains. The Edmonton people had the company of Illiquor trader from Fort Benton all winter who sold alcohol with six parts water for \$75 per galloo, and the simon pure lightning tod without any water, presumably to small dealers or trap traders, at the moderate price of \$64 per gallon. per gallon. Editor Standard:—I was very much oleased a few days since on paying a visit to the Cooperville fishery under the management of Mr. J. S. Deas, to see the order and neatness in every branch of the establishment, everything working like clock work. He has about 60 men at work and is causing about 4,000 lbs. of fish per day; but on account of the immense number of fish running has to sait a great quantify although his canning establishment is runding night and day. There are now three other parties employing about the same number of hands at New Westminster, and still room for a great many more. Who can say that Beitish Columbia has no resources? All it wants is a little capital and labor to develop them.

WORK STATEMENT BY SIR BUGH ALLAN.

If . A [From the Toronto Mail.] After the article which appears on the second page of this paper had been sent to press, we received by telegraph from Montreal the affidavit of Sir Hagh Atlan, which is published at length eisewhere. This affidavit, sends Mr. Huntington with his charges received the sent the interpretation of ing to the earth. It puts the interpretation o truth up the two or three sentences upon which the grave indictment was built; and which the grave indictment was built; and knocks into stone the filmsy framework of the charges which Mr. Brown has been waving in the air months past. Even the ghat had written somewhat indiscreetly, as Sir Hugh Allan himself now admits, it was pothing but a terrible hatred of Sir John Macdonald which could have converted Sir Hugh's letters into the dastardly accusation which was made against Sir John, and so frequently reiterated with as much definiteness as though it were literally true. Sir ness as though it were literally true. Sir Hugh's affidavit is a frank confession of the course which he deemed fit to take in the fur-therance of the great scheme he, had in hand; but it is, besides, a positive and unequivocal desist of the charge that he at any time, either directly or indirectly, gave any money to Sir John Macdonald, or any other Minister to accure the charter of the Pacific Rail-

denial of the charge that he at any time, either directly or indirectly, gave any money to Sir John Macdonald, or any other Minister to secure the charter of the Pacific Railway.

Thus is scattared to the four winds of Heaven, even before the investigation has taken place, the base calumnies fabricated upon such slender grounds by personal hate and political sexil to damn a formidable opponent. The order is now well over; and Sir John Macdonald comes out of it bright and pure, and more firmly actiled in the good opinion of the people of Canada than he ever was before in his life! "Whe new told the lie?" Mr. Brown asked the question once. We a-k it now. Can there be any doubt as to what the answer of an outraged public will be?

A dream came o'er me as I lay With head on pillow pressed,

Of such a splendid fitting Coat and Pasts, and such a Vest.

Me thought that as I walked abroad All ayes on me were cast. All ayes on me were cast,
But ah I my dream it passed away.
T'was far too, bright to last.
But still before my cager gase.
Would-come the dream of other days.

One day as I walked out alone, My mind with sadness fraught I wondered if in this good town Such Clething could be bought;
Just then is friend was passing bye
Who saw the sadness in my eye,
So kindly asked me, him to tell
What grief o'er me had cast a spell
I told him of the vision seen,

Said be, go buy of David Green.
